

2022 TROG PLAN CHALLENGE:

Functional Lung Planning

Two plans required = twice the fun!

Goal: Create one functionally optimal and one anatomically optimal treatment plan for lung cancer radiation therapy. This challenge will be run in preparation of the exciting new clinical trial, **Ventilation Imaging for Thoracic Lung cancer radiation therapy (ViTaL)**.

Results: Winners and plan challenge results will be presented at the **2022 TROG ASM Technical Research Workshop**. Visit ASM.TROG.COM.AU for details.
